# Introduction

We've woven together an incredible mix of peer-based learning this year, including lectures from industry leaders, demos and hands-on sessions, a fantastic suite of programs for your entire team, and a new debate style that reaches beyond the argument to focus instead on identifying the most impactful solution. You'll also have the opportunity to review treatment of complex cases, and we're excited to include a new twist on treatment planning sessions. We've all seen things go awry, and a conversation about managing miscues and treatment failures is an invaluable opportunity to discuss and share favorite tools and techniques that make life so much easier at the chair. From learning contemporary technologies and navigating the business landscape of dentistry, to taking care of your mental and physical wellbeing, our 2023–2024 program will broaden your frame of reference and build the resilience essential to success.

## TOPICS COVERED IN OUR MEETINGS INCLUDE:

- » Dental implants
- » Guided surgery
- » Advances in Dental Technology
- » Case discussions
- » Dental complications
- » Legal issues for dentists
- » Dental marketing
